Please respond to the following questions:

- What are the strengths of this intern?

Suzy was incredibly approachable and helped us as students keep things in perspective and helped us apply what we were learning to real scenarios. She held us accountable to our self-care every week, checked in with us continually, offered opportunity for extra supervision outside of class time, made herself available if we needed additional assistance, and overall made the learning experience less stressful. I wish Suzy could stay with me through my whole internship experience, especially if she is paired with Dr. Ward- they were a dynamic duo, and they both really know their stuff.

2. What are the areas of improvement for this intern

Honestly, Suzy was so hands-on and involved with us and so helpful, I'm not sure what to put for this category. Her supervision was very helpful, and she gave great feedback. She would check in with us about how we were feeling before and after feedback, ask us what kind of feedback we were looking for, and engage in constructive discussion with us and the class rather than just say "oh you did great now let's move on." Suzy wants to see us grow and do our best, and we could tell that through her interactions with us and engagement with the course structure.

3. Do you feel that this intern helped you to develop as a counselor? If so, how? If not, how could they have contributed more to your development as a counselor?

Yes, see above comment.
